

NUTRICIA GLOBAL VIRTUAL CONFERENCE 2023

**TRANSFORMING LIVES WITH SPECIALISED NUTRITION –
TAKING SCIENCE & RESEARCH TO ACTION IN PRACTICE**

April 18th, starts at 13:00 CEST

REGISTER NOW

KEYNOTE LECTURE: "THE FUTURE OF HEALTH:
EXPLORING THE CONVERGENCE OF NUTRITION,
TECHNOLOGY, AND DISEASE PREVENTION"
- STEVEN TUCKER MD (SG)

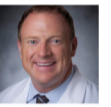

TAKING ACTION TO IMPLEMENT OPTIMAL PATIENT- CENTERED NUTRITIONAL CARE IN ADULTS

13:30-14:00
CEST

HOW DOES MEDICAL NUTRITION TRANSFORM LIVES? A PHYSICIAN-PATIENT EXPERIENCE

Prof. Paul Wischmeyer (US)

14:00-14:40
CEST

PRIORITISING NUTRITIONAL CARE IN THE SURVIVAL AND RECOVERY OF CRITICAL ILLNESS

• Nutritional intervention in ICU to improve functional recovery
Prof. Arthur van Zanten (NL)

• What do we know about dietary protein in critically ill patients?
A. Prof. Lee-Anne Chapple (AU)

• Optimising nutrition and hydration post stroke
Alex Lang, MSc (UK)

14:40-15:30
CEST

BRIDGING EMERGING SCIENCE & PRACTICE IN NUTRITION FOR ONCOLOGY PATIENT CARE

• The latest on nutritional therapy along the cancer journey
Prof. Alessandro Laviano (IT)

• Implementing prompt nutritional therapy in daily practice - what's next?
Dr. Stefan Rauh (LX)

• Conducting research to improve practice: new data on nutrition in oncology:

- Resting energy expenditure: a PDL1-independent biomarker of the clinical activity of immune checkpoint inhibitors
Prof. François Goldwasser (FR)

- Persistence of nutrition therapy and survival in head and neck cancer - real life data (on demand)
Prof. Jozsef Lovey (HU)

- Impact of perioperative high-protein oral nutritional supplements on postoperative outcomes in non-small cell lung cancer (on demand)
Dr. Olga Obukhova (RU)

15:30-16:00
CEST

WHY MUSCLE-TARGETED NUTRITION SHOULD BE FIRST-LINE IN FRAILTY

• Protein and anabolic resistance in frailty: What HCPs need to know
Prof. Luc van Loon (NL)

• Freeing the frail: How to maximize independence with assertive nutritional care
Dr. Emanuele Cereda (IT)

• EMPOWER-GR trial: Emerging evidence in older adult rehabilitation
Prof. Andrea Maier (NL)

• NutriEcoMuscle project: Morphofunctional assessment and nutritional intervention in patients with severe COVID (on demand)
Dr. Irene Bretón (SP)

16:00-16:30
CEST

PLANT-BASED MEDICAL NUTRITION: AN OPPORTUNITY TO INDIVIDUALISE NUTRITIONAL CARE BY MEETING PATIENT NEEDS, PREFERENCES & VALUES

• An introduction to the four pillars of individualized nutritional care (INC)
Dr. Anne Holdoway (UK)

• Individualized nutritional care in practice: a look at how plant-based medical nutrition can accommodate patient needs, preferences and values
Dr. Anne Holdoway (UK)

• New evidence shows the value of plant-based medical nutrition
Dr. Rebecca Stratton (UK)

16:30-17:00
CEST

ADVANCING THE FIELD OF MEDICAL NUTRITION WITH CLINICAL RESEARCH: HOW TO TAKE ACTION

A live panel discussion
Prof. Elisabeth De Waele (BE), Prof. Alessandro Laviano (IT)
& Dr. Anne Holdoway (UK)
